This is Omar!

Omar takes care of those beautiful gardens you see outside of Mustards. He works very hard every day to make sure that the plants are really happy and healthy, but he never uses any bad chemicals to keep the bugs away.

The kind of farming that Omar does is called ORGANIC. Omar thinks organic farming makes the tastiest veggies, fruits and herbs. Each day he brings the best of the garden to the chefs so that they can create a yummy dish for the special of the day. Before you leave today, make sure you go visit the garden. And if you see Omar, ask him to show you around!

kids only!
